Best out of Waste

The students of classes VI to VIII participated in 'Best out of Waste' competition held on 19th October, 2019 (Saturday). The objective of the competition was to make children aware of the uses of waste material and to give them a lesson on reducing waste to save our future. Children used their imagination and creativity to make innovative things. It was amazing to see how scrap could be transformed into useful and beautiful things.

Five Amazing Facts About Animals

Animals play an extremely important role in the lives of humans. Keeping this in view an activity was conducted on 19th October, 2019 (Saturday) in the school Auditorium where children of classes I and II spoke 5 interesting facts about an animal of their choice. The props like animal mask, animal costume, hand bands and head bands were the added attraction. It was indeed an enriching and informative session.

The Audience enjoyed the session and applauded loudly for each and every participant.

Students used old newspapers, broken bangles, plastic bottles, old CDs, ice cream sticks etc. All these things which are wasted in our day to day life were used in a constructive manner.

Our Principal and Head Mistress Ma'am appreciated the imagination and the creativity was appreciated by all and further motivation was given to reduce and reuse the waste product to save our "Mother Earth".
